Subject: English

Teacher: Isabel Fernández

Outline

Health

traditional and alternative medicine

There is a contrast between taking a pill and the alternative medicine

In both cases the person wants to feel good

Feeling good at any cost

A pill (chemical medicine)

Acupuncture (false medicine)

What would people do just to feel right?

2 Does alt. medicine affects the same as a chemical product or is just psychology?

1 Have a balance

Making a speech

1- Short description of image

2- What it makes me think about

3- Give explanations and details

4- Figures & numbers (reliable references)

5- Conclusion

~~What we can~~

Health food store young people

Pharmacy old people

I think about decadence and the darkness of 3rd age

Using more products from where they are on the image

The ~~old~~ people from left depends more from drugs than those from right

As we said yesterday I ~~think~~ believe that

From National Ministry of Health, there's a ~~20%~~ 20% of the population that depends of drugs and 80% of them are old people

I believe that taking a pill or generally a drug is good but just as a complement as we said yesterday we won't heal magically so sometimes is good to have this drugs

But as we said yesterday we need a balance

Outline

To get to alcohol

Kids ^{have} ~~can't~~ to get through us

Addiction → Drug abuse

3 hands separating the way to alcohol

Don't want that kids go to alcohol

I agree because this limits form a kid

Maybe from child it's necessary this limits to know what decisions does the kid will do in the future

But when he grew up it's not necessary anymore this limits

What does the image represents to me?

Start about one issue

~~I start~~ I start & reference

Impact of info tech on society

Mental health

ethics about extra work

"One click could change your life"

To whom it may concern:

Hi I am Joel...

Descript: Bone scan of a human body
We see a seat belt not connected representing the
~~the~~ spine — Phrase so...

What makes
me think

~~may me think, Spine + principle~~
About security in a ^{driving} car → There are a lot of
life losses by → car crashes

— ~~Maybe~~ Many people ^{have} lost someone because

According to: ~~accable.com~~ and accable.com

Nearly 1.3 million people die in road crashes each year
= 3287 deaths each day in USA

Also 20-50 million are injured

In fact: the causes of traffic crashes are:

32% drunk

31 speeding

16 distractions

11 bad weather

79% ~~car driving~~

} Because of ~~bad~~ ~~vial~~ education

Optional

We need to be cautious and drive taking care of ourselves

In conclusion: That seatbelt in image for me is take
care of ourselves "The ball is in our court" It's our time to change
We can change this having more vial education
As adults → set the example → responsibility As younger population:

Know that driving is not simple
and we ~~need~~ need vial education and
be cautious

Reflection: ~~That's~~ I find this as terrible
make me think about bad car driving education

Conclusion: I'd want to start with myself
Now I can drive and with that responsibility
I need to show to my little bro that is better to
~~drive~~ to ~~drive~~ know this car driving education
and make consciousness to my friends and all I know
that drive with this car driving education

- 1- Strong want
- 2- High stakes
- 3- Persuasive moves
- 4- Want to keep reading
- 5- Good ending (accepts or overcome an obstacle)
- 6- Make feel who's reading emphasize
- 7- Overcomes internal obstacles
- 8- Balance past / present action (connect then and now)
- 9- Discovery, be original
- 10- Dramatic / comedic tension

Planning Written Assignment

Book: The last question

Type of writing: Diary

Description:

Lupov is writing about his daily life when he sees Multivac and the development of technology but he doesn't mind about the consequences and entropy in the universe until the last report that he knows that all those advancements could increase the entropy

aim + we aren't conscious about how our actions could:

Linked to VJ-23X : He finds the diary
